### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims-

5. (Currently Amended) The bushing of claim 2 wherein each ear contains at least 3 generally V shaped ~~notch~~ notches therein.

### ***Allowable Subject Matter***

Claims 1-32 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest an electrically resistant-heated fiberizing bushing with two ears attached to the bushing walls, whereby each ear contains at least one V-shaped notch with the widest portion of each V-notch being at an unattached end of the ear.

The prior art also does not disclose or suggest an electrically resistant-heated fiberizing bushing with two ears attached to the bushing walls, whereby each ear contains at least two V-shaped notches with the widest portion of each V-notch being at or near an unattached end of the ear where terminal clamps are attached.

Art Unit: 1731

Each of the claims, either the apparatus or method claims, encompasses at least one of the above features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

Applicant's arguments filed March 1, 2005 have been fully considered.

The arguments and amendments to the claims read over the rejections under 35 U.S.C. 102(e) over Melia et al (US 6,196,029) and under 35 U.S.C. 103(a) over Yantsev et al (US 3,589,879) set forth previously. Neither reference teaches ears having v-shaped notches with the widest portion at unattached ends of the ears.
